

PU Foam Cleaner

iQuip PU Foam Cleaner is an acetone based Polyurethane Foam Cleaner designed to effectively dissolve and remove non-cured polyurethane adhesives. Ideal for cleaning and maintaining PU foam applicator guns after use.

It can also be used to remove fresh uncured foam from other solvent resistant surfaces, tools and clothes. Is effective with both single component and two component polyurethane foams. iQuip PU Foam Cleaner will also clean and remove grease, oil, wax etc from other contaminated substrates.
